

## Description

### PLANT

Plant is a family of umbrellas that was designed by redefining the archetypal shape of the sunshade object to create a light, elegant and compact volume. Plant's idea is to go beyond the classic concept of a roof to protect from the sun by proposing a new way of interpreting the outdoor space through a product that allows to repair and illuminate the surrounding space. Wing represents a series of flexible and mobile partitions characterized by a strong three-dimensionality and formal coherence.

### Materials

#### Solution dyed Acrylic Fabric

Designed for outdoor use, the solution (spun) dyed acrylic fabric resists salt water, chlorine and any type of harsh climate. Colours do not bleed and remain vibrant for a long time. A specific treatment makes the fabric water repellent, mould resistant and protects it from staining. This type of fabric resists the most extreme conditions and is suitable for year-round use in gardens, terraces, pool sides or on-board boats. It's definitely the top choice canopy fabric to select for your Product. UPF 50+ (UV Protection Factor) 280 gr/m2.

## Finishes

The materials used have been specifically selected and treated to maintain our products durability and consistency over time. The lumber we source is the best available to guarantee structural integrity and strength of the product. The aluminum profiles are powder coated or anodized to ensure a longer durability in time. The colors may differ from the real ones.
